Olive 4HD

What Hi Fi (UK) Jan 2010

"Olive's music server can deliver hi-fi sound that even ardent CD aficionados will surely find difficult to dislike."

Digital Trends (USA) Jan 2010

"We can describe the Olive 4HD Hi-Fi Music Server in one word: Exquisite. If you love music—collecting it, archiving it, and above all, listening to it—this is the digital audio player you should own."

"... the bottom line is that we haven't encountered a digital music system that's elegant, well thought out, and better-sounding than this. Bravo!"

Home Entertainment (USA)

"The improvements over the standard Opus 4 are enough that I'd definitely recommend getting the 4HD over the 4. That's not to say the 4 isn't a great product, but for the extra \$200-500, the high-res capability, HDMI out, and digital input are enough to lean me towards this one."

HOME ENTERTAINMENT
FEATURING THE FINEST IN AUDIO/VIDEO TECHNOLOGY & DESIGN

Stereo (Germany) 3/2010

"Olive's streaming and Hard Drive based concept makes a very mature impression. Although some small things can still be improved the Olive 4HD's feature set, navigation and simple integration into your home network is unique. Sound quality, design and build quality also satisfy the highest demands. 4 stars, Excellent"

Audio (Germany) 03/2010

"Music lovers that are looking for a simple and great sounding combination of a CD Player and hard drive-based music get everything they need. The Olive 4HD eliminates the need for a PC and offers gapless and high-definition playback. It is a great deal!"

Sound quality: 100 points

Price/Performance: Very good
